There are:

- people that *make* things happen...
- People who *watch* things happen...
- People who *wonder* what happened...

Which one of these are you?

Have you ever considered starting your own business and enjoying the challenge, the rewards and freedom.

If you are an enthusiastic worker, and a good communicator with sound common sense, see inside.

10 myths about starting a business:

1. I need a lot of money to get started

No, you don't. If you join the CCP Network, you can become an operational business within an hour for the cost of a couple of phone calls.

2. I need an office with telephone and broadband

You do not. You are able to work from home or anywhere quiet where there is a good internet access.

3. I will need to employ staff

Well you can if you want to do so but all the labour and skills you will ever need is available in the CCP Network.

4. I have no support if I go on holiday or fall sick

With the CCP Network, you will enjoy reliable full support for as long as you need, on demand.

5. I need high level skills and qualifications

All you need is the confidence to enjoy talking to people, the ability to listen and learn and a load of common sense.

6. I will need to travel

You do not need to travel but you can if you wish. If you are unable to visit customers the CCP Network will take care of that for you.

7. Working from home is isolating and lonely

Only if you let it be that way. People in the CCP Network make new friends by email, text, phone and live video.

8. I have all the worry of dealing with Tax and VAT

Nonsense. Tax returns are simple and only once a year, and if you do have to account for VAT it cannot be easier.

9. If I move home, I will have to start again

Not at all. With the CCP Network, your business moved with you with no trauma. You can take it wherever you wish.

10. I need to be employed to get a mortgage or finance

Actually that is one of the biggest myths. CCP Business Loans Ltd is a member of the CCP Network and able to help and advise on mortgages, loans, insurance and pensions
